As per our phone conversation, enclosed find forty-one proof Barber Quarters, all dated 1902. They were acquired between 1970 and 1974, and are in their original holders as at time of receipt.

Obviously, the quality varies, although I rejected most of the real "dogs" when they were offered. Some look particularly nice, and some definitely not.

The pedigree list is attached. I have receipts on virtually all of these if you would like them. Please try to keep them separately identified by my serial number (K number). If you go to the trouble of grading them individually (60, 63, etc.) I would be interested to know how you graded each of them, as I have done so and would enjoy comparing notes.

My primary question is: How much will you give me for the lot in the form of a credit against a major purchase (six figures assumed) at Garrahl II?

If, after looking at them, you would prefer that I find a third party to offer them to, who would buy them from you at a price to be credited against similar purchases at G-II, don't hesitate to tell me. I am not sensitive about shers against my coins, only about my kids!

If my extensions are busy, can also be reached through Eric's extension - 444-6525, since our offices are adjacent.

P.S. On re-checking, K03 does not seem to be a proof. So, by coincidence, this amounts to exactly one proof roll! Wish I had bought a roll set!

Car.

The Market has been quiet for a couple of months and unless I could get a good price for the coins I'd hang on to them. My estimates are conservative and careful liquidation in a steady market should realize more.

Hope you enjoyed your trip.

Looking forward to seeing you this summer.

Best,  
Julian
